Thanks for the clarification. Its hard when I get information piece meal. I appreciate the information when you get it to keep me up to date but I still would like an end of week email summarizing the activities for that week.

Activities Conducted, Activities Anticipated for the next week, and Progress against the agreed schedule.

Thanks again

Gary,

I gave you what I had last week. We submitted the disposal permit application to the TCEQ and resampled the sludge for disposal purposes. Alonzo Arredondo started today and will be helping to pick up the disposal progress. As soon as we get the lab data back we will start shipping waste and begin cleaning tanks 2 and 10. I believe I already reported the cleanup schedule on those tanks.

Sorry I didn't respond on Friday I thought I already filled you in.
